

Dear Parents/Carers,

RE: Adverse Weather Conditions

In the event of a forecast of heavy snow/bad weather, please be aware that hazardous roads at peak times may affect access and travel plans.

Please use your judgment in terms of your child attending school in difficult weather conditions particularly if you live in inaccessible areas and make contingency plans if you have work commitments as children may need to be received home earlier than the normal time, particularly if the weather deteriorates further through the school day.

If school is closed due to severe weather conditions, you will be informed by: -

- The text messaging service (it is very important we have your most up to date contact details).
- The school website and Facebook page.
- A recorded message on the school telephone (if possible).
- Local Radio Station

Be assured that the decision to close school is never made lightly. All our decisions are based on ensuring the health and safety of children and staff. Now I have shared this information with you, I really hope we don't need to use it. But at least we are prepared!

Yours sincerely

Linda Lester.
